INZPIRATO Vajra 800 Series Scissors Cutter

These cigar scissors are a refined evolution of traditional designs, offering superior comfort and ergonomic handling. Crafted from high-quality German surgical-grade materials, they feature a ceramic-baked paint handle and a 403 stainless steel blade, combining lightweight construction with minimalist elegance. Designed to cut cigars up to a 64-ring gauge, they deliver swift, precise cuts with a sharp, clean edge.

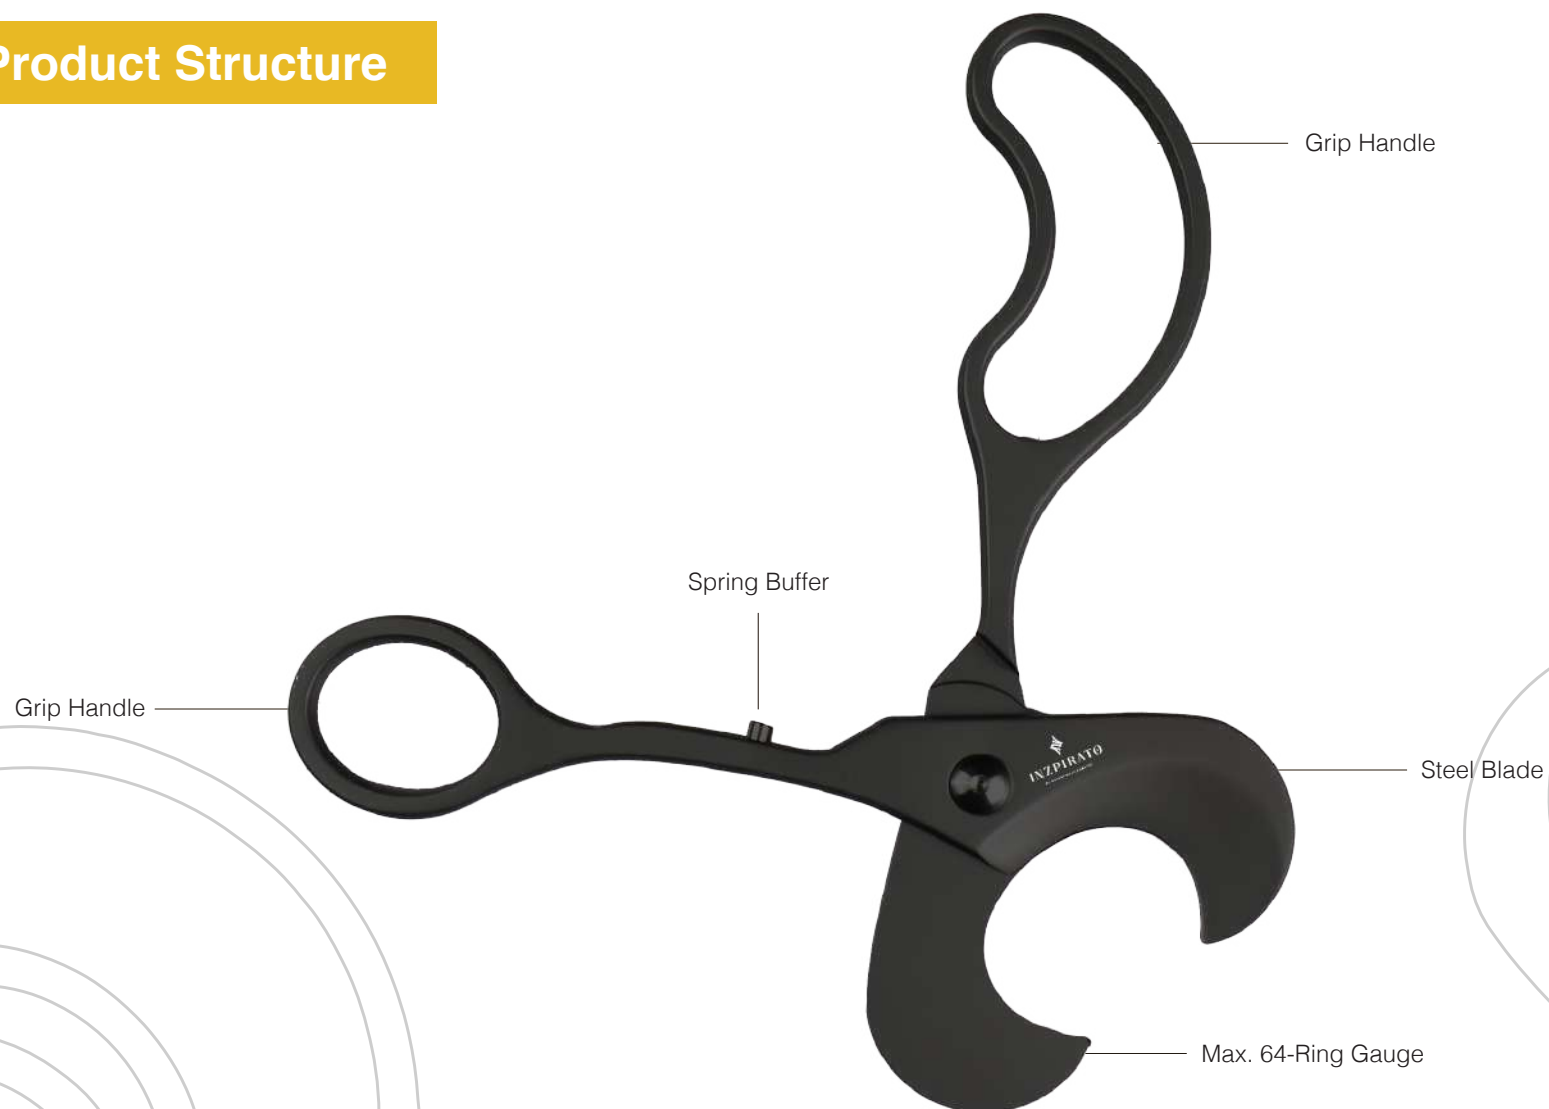

High Quality

These scissors are crafted from German-imported surgical-grade materials, featuring a ceramic-baked handle and a 403 stainless steel blade. It's the highest-quality steel used in similar products, meeting surgical instrument standards. The blade is CNC-machined, hand-polished, and surface-treated after edge grinding, ensuring exceptional durability and the ability to perform thousands of precise, effortless cuts.
